

ABOUT TWG INFRASTRUCTURE SOLUTIONS

Since 1992, TWG Infrastructure Solutions has been a trusted representative for leading roadway and ornamental lighting manufacturers, earning a strong reputation in the industry for innovative lighting solutions.

Over time, our capabilities expanded to include a diverse range of Smart City and infrastructure solutions, going well beyond our original focus.

In 2021, we rebranded as TWG Infrastructure Solutions to better align with our evolving mission and markets. Today, we proudly represent premier manufacturers like GE and Valmont, alongside an extensive portfolio of additional partners. Our services cater to municipalities, the Illinois Department of Transportation, the Chicago Department of Transportation, The Tollway, private clients, design consultants, architects, utilities, educational institutions, general contractors, and electrical contractors.
